

Three Hour Mixed Media Mask Workshop for Adults

Enjoy this workshop in the early Fall to create a multimedia mask. Kat invites you to bring an idea of a persona or an archetype to inspire design and production of a mask using many art materials from her studio.

*“The opportunity for making a mask was presented to me during my Dream Group when we were studying the concept of **personas** and **shadow** when studying Carl Jung. I will talk about this as part of the introduction, but the majority of class time will be spent creating a mask using a sturdy plastic base and collaging different materials onto it.”*

You will learn about techniques for using specific materials, how different glues are used for different weight materials, and how to attach heavier items if desired. You may also want to work out on one of our covered patios to splash paint or use the power tools.

Please bring your lunch and wear comfortable clothing that can get dirty. This is a morning class that runs from (9:00-12:00 am)

\$125 per person (includes all instruction, supplies and use of tools)
